# Storyboard - Music App

## **Collin Remer**

Brandon regularly listens to music while working his account job. He finds that it helps him focus a lot. He is looking for a new app with more to offer.

One of Brandon's coworkers tell him about a new music app that he has been using, so Brandon decides to try it out.

Brandon notices that the membership price is half of what he currently pays, so he decides to use it to see how he likes it.

Brandon finds that he loves the user-interface of the app and has found just the change he was looking for.

Brandon and his coworker share some of their playlists with each other and both of them find some new music they enjoy.

Brandon feels more focussed and motivated at work now with his new app for music.

Jackie is trying to enjoy her time on a nature trail

She is distracted thinking of environmental damage

Jackie uses her favorite music app to try to calm herself

she downs cut her hair and enjoys her walk

She is so satisfied, she uses it more and more

Jackie is more happy in life

# Music Player Storyboard

By Jacob Frierson

John has been trying to go to the Gym more often as of late, but he just can't get himself in the mood to pump without a workout soundtrack. Unfortunately, whenever he does try to listen to music at the gym, he takes so long to find songs to play that he ends up not working out at all.

He needs an app that will create a workout playlist for him, filled with new music that fits his tastes. He wants a new playlist for every workout he performs.

While looking for such an app online, he finds Tech Support's music player.

With Tech Support's music player, John is able to automatically create a playlist for his workout that only includes songs from the genres he likes to listen to while working out.

Tech Support's modular playlist feature even makes sure to constantly switch out songs so that John doesn't have to listen to the same songs over and over again.

Thanks to Tech Support, John can workout in peace and has achieved gains.
